The graph displays consumption volume over time. The x-axis represents time in seconds, ranging from 0 to 100. The y-axis represents volume in liters (L), ranging from 0 to 10. The data shows several sharp peaks, indicating consumption events. The highest peak occurs at approximately 75 seconds, reaching a volume of about 10 L. Other notable peaks occur at approximately 25, 65, and 95 seconds.

| Time (s) | Volume (L) |
|----------|------------|
| 25 | ~8.5 |
| 65 | ~7.5 |
| 75 | ~10.0 |
| 95 | ~4.0 |
