

Chromatogram showing consumption volume over time. The x-axis is labeled 'Time [min]' and ranges from 0 to 100. The y-axis is labeled 'VolumeMedia [L]' and ranges from 0 to 10. A red line represents the consumption volume, showing several sharp peaks. The most prominent peak is at approximately 35 minutes, reaching a volume of about 10 L. Other smaller peaks are visible at approximately 15, 20, 25, and 30 minutes.
