

The graph displays a single data series for 'consumption': 'VolumeMedia [L]'. The x-axis shows a time interval from 03:12 to 03:13. The y-axis represents the volume in liters. A red line indicates the consumption volume, which remains near zero for most of the interval but exhibits a sharp, high-amplitude spike around 03:12:50, reaching a value of approximately 1000 L. The legend in the top-left corner identifies the data series.
