

Chromatogram showing consumption of VolumeMedia [L] over time. The x-axis represents time from 07:06 to 07:07. The y-axis represents consumption volume. A red line shows the consumption profile, which is mostly flat with several sharp peaks. The highest peak is around 07:06:55, reaching approximately 1.5 L. Other significant peaks are around 07:06:45 and 07:06:50.

07-07
